

Project Management Center

Plan an implement efficiently

Your benefits

- ✓ Remain flexible during project implementation and adapt project phases and milestones, including all dependencies
- ✓ Automate your business processes for faster, more resource-efficient processing of sub-steps with a lower error rate
- ✓ Use project templates to reuse and optimize proven project concepts
- ✓ Work location-independent thanks to a responsive tool environment with support for all devices
- ✓ Keep track of your current project state at any time with KPI dashboards and progress indicators

Flexible project planning and implementing

With OMNITRACKER Project Management Center, you ensure flawless communication between all parties involved in projects of any size. Our project management software supports you in all project phases: from planning, initiation and regular controlling to systematic analysis and evaluation before and after project completion. The goal is to make efficient use of your specialists' knowledge and to complete projects in a resource-saving, transparent and successful manner.

All responsibilities, role and release concepts (e.g. in case of milestones or budget overruns) can be adapted in detail to your organizational structure. You can plan and execute your projects using both agile and classic approaches.

Features of OMNITRACKER Project Management Center

Full budget and cost control

Flexible authorization and role concept

Data exchange with MS Project

Reusable project structure plans

Agile or classic project model

Interfaces to third-party systems

About OMNINET

OMNINET, headquartered in Eckental near Nuremberg and with international branches, specializes in ITIL®4-certified ITSM & ESM software with a focus on modelable workflows and process automation with AI. Interfaces, BI reporting, compliance solutions and other modular applications extend the functional scope of the all-in-one solution OMNITRACKER.

OMNINET is certified according to ISO standards and has been providing certified and award-winning software products for over 30 years—100% made in Germany. The flexible OMNITRACKER low-code platform is the industry-independent software solution for individual digitalization strategies.

What you can expect

Our purpose is to empower your business with high-quality software solutions. With us, you succeed in a rapidly evolving digital landscape and enhance your growth potentials.

Results-driven consulting

To reach your goals, our consultants help you identify your needs and develop tailored strategies, from technology selection to architecture design.

Versatile project management

With a focus on agile methodologies, we ensure your projects are delivered smoothly, on time, within budget, as well as with exceptional quality.

Practical training

We empower your team with skills to make the most of our software solutions. Our trainings cover best practices, tool utilization, and agile development.

Together, we create software that drives growth and innovation, helping your business stay competitive and future-ready.
